

## ACCOMMODATION SOLUTIONS FOR BUSINESS TRAVELLERS

For those looking to relocate to London or who are travelling on business, the Cheval Group of Serviced Apartments provide an excellent alternative to staying in a five-star hotel or renting a flat or house privately.

The Gloucester Park, Thorney Court and Hyde Park Gate properties, which are located in Kensington, offer the most luxurious serviced apartments in the Capital. They all cater for stays of 90 days or more and are specifically designed to accommodate guests who are relocating on a longer-term basis.

The properties are ideal for business travellers who are relocating temporarily, to complete a business project, or for executives who require a London 'home' on an ongoing basis. They are also perfect for those who are looking to relocate on a more permanent basis as they 'bridge-the-gap', making the whole process of relocating less daunting.

The apartments provide an excellent base from which to research areas, schools and transport links before committing to buy a property, while allowing business guests to focus on starting their new job and life with minimal practical concerns. Guests will also have an instant support network from the 24-hour concierge who can give residents advice, hints and tips on general London living.

The apartments at each of the properties have been specifically designed to provide a 'home from home' experience. All the apartments at Gloucester Park, Hyde Park, and Thorney Court are fully furnished and comprise a lounge, dining area, study, fully equipped kitchen, separate bedroom(s) and en-suite bathroom(s).

Each apartment is stylishly designed to a high specification and provides first-rate privacy and security with sophisticated security systems. They also offer other essentials including direct dial telephones and faxes, satellite TV and wireless broadband, along with many hotel-like qualities such as a 24-hour concierge desk, daily maid service and in-house maintenance.

Whether guests are travelling alone, or with a family, the properties offer apartments to suit every need. These range from luxurious one-bedroom apartments to spacious two, three and four bedroom apartments, which are perfect for families when relocating.

**Note:** The Cheval Group is the market leader in luxury serviced apartments and owns and operates six properties, which offer 286 apartments. Three of properties cater for shorter stays of a minimum one-week while three of the properties have been specifically designed to cater for longer stays of 90 days or more.
